QUALIFICATION HIGHLIGHTS

- Natural talent for developing rapport and building positive relationships with senior executives, clients, outside parties, and internal team members
- A confident and concise communicator, able to deliver enthusiastic oral and written presentations with clarity to diverse audiences
- Proven ability to translate high-level strategy into effective tactics; known as a resourceful, solutions-oriented, leader

PROJECT MANAGEMENT

- Currently serving in multiple capacities on the SunTrust / National Commerce Financial (NCF) merger engagement. My primary responsibility is as project manager for the Commercial Loans conversion program. This effort includes both the operational and technical components that must align to successfully migrate the NCF commercial loan portfolio to SunTrust. I'm also responsible for implementation planning and execution of merger-related activities for the Corporate Real Estate, Strategic Sourcing and Procurement Services functions of the bank.
- Lead as program manager for the Brokerage IT Integration Office responsible for the successful execution of 60+ IT initiatives at Wachovia Securities. These projects are all in support of the pending merger between Wachovia and Prudential Securities which will result in the creation of the country's 3rd largest retail brokerage. My primary role consist of implementation and support of common program and project management tools and principles such as standardized status reporting, issue and risk management processes, change control procedures, and impact assessments. The ability to synthesize and concisely summarize the status and issues of an IT program of this magnitude in a manner that is both accurate and business relevant has been one of the keys to my success in this role.
- Developed and implemented a program management framework across the Commercial line of business for SunTrust Bank. This framework enabled the effective concurrent coordination of approximately 14 distinct Commercial initiatives designed to generate a \$27MM net profit impact for FY 2003. Through my involvement with rolling out a new Commercial sales process for the bank, I received training and obtained a certification as a *Salesforce.com* implementation consultant.
- Coordinated all work efforts of a combined Pacific Life Insurance and Accenture project team of 10 over the entire system development lifecycle. Some of my specific responsibilities included the oversight of all 3rd party vendor relationships, development of work effort estimates and project timeline, and management of system design, configuration and testing activities.

SYSTEMS DEVELOPMENT

- Lead joint SunTrust Bank and Accenture project team through full implementation life-cycle of a new credit approval and management system for SunTrust lending and credit support personnel. The .NET based system is used to facilitate a standard credit approval and management process across all of SunTrust's lines of business. My primary focus areas were requirements validation, system analysis and design, test planning and execution, and implementation planning.
- Staffed and directed Accenture project team through the requirements, analysis, functional and detailed technical design phases of a Microsoft .NET application design effort focused on creating an interface into the client relationship system used across all SunTrust Bank lines of business.
